

# EAST COVENTRY

## A D V O C A C Y

**Mission Statement:** East Coventry Advocacy believes in protecting the quality of life for the community by empowering residents to better understand and become involved in their municipal government.

**History:** East Coventry Advocacy organized in October of 2022 as a 501c4 in response to the planned Food Processing Residual (FPR) waste pit and dumping grounds in East Coventry to inform the residents, elected officials, and township employees of the hazards and risks of such activities to the community, watershed, and wildlife.

**Latest:** We are funding counsel to defend the interest of the residents of East Coventry and need your support to continue. <https://www.eastcoventrypa.org/donate>

### Community Action Items:

1. Learn about Food Processing Residual (FPR) waste here: <https://www.eastcoventrypa.org/faq>
2. Encourage the East Coventry Board of Supervisors to consider a “Wellhead Protection Act” to protect surrounding wells from contamination. Google “Antrim Township FPR” to see the results of failure to protect wells from FPR.
3. Contact State Representative Paul Friel (717) 772-1411 and State Senator Katie Muth (610) 792-2137 and ask them to have Pennsylvania ban the spreading of FPR on farm fields as was done in Virginia and Maryland.
